The above-written

notification for the termination of the authorization to a third party has to be received by the Company with at least 2 days' notice.

3.2. The transaction (opening or closing a position) is executed at the "BID" (Buy)/"ASK" (Sell) prices offered to the Client. The Client chooses a desirable operation and makes a request to receive a transaction confirmation by the Company. The transaction is executed at the prices the Client can see on the screen. Due to the high volatility of the markets during the confirmation process, the price may change, and the Company has the right to offer the Client a new price. In the event the Company offers the Client a new price, the Client can either accept the new price and execute the transaction or refuse the new price, thus cancel the execution of the transaction.

3.3. The Client, using electronic access, can give only the following orders of trading character:

- OPEN – to open a position;
- CLOSE – to close an open position.
- To add, remove, edit orders for Stop-Loss (a pending order whose purpose is to limit loss at a pre-designated rate or loss), Take Profit (a pending order whose purpose is to close a transaction, in full or in part, at a pre-designated rate or profit), Buy Limit (an order to buy a certain financial instrument at a designated price or lower), Buy Stop (An order to buy a financial instrument which is entered at a price above the current offering price), Sell Limit (an order to sell a specified quantity of financial instrument at or above a specified price), Sell Stop (an

The Client's Order shall be valid in accordance with the type and time of the given Order, as specified. If the time of validity of the order is not specified, it shall be valid for an indefinite period. The Status of the orders is always shown in the Client's online Trading Platform. In the event that access to the online Trading Platform is not possible, then Clients may contact the Company by telephone and request the status of any of their pending orders.

3.4. The Company shall not be held responsible in the case of delays or other errors caused during the transmission of orders and/or messages via computer, as well as for damage which may be caused by the non-validity of securities, or a mistake in the bank account balance of the Client. The Company shall not be held responsible for the information received via computer or for any loss which the Client may incur in case this information is inaccurate.

3.5. The Company reserves the right to change the opening/closing price (rate) and/or size and/or number of the related transaction (and/or the level and size of any Sell Limit, Buy Limit, Sell Stop, Buy Stop order) in case any Financial Instrument becomes subject to possible adjustment as the result of a Corporate Event. This operation is applied exclusively to securities and has a meaning to preserve the economic equivalent of the rights and obligations of the parties under that transaction immediately prior to that Corporate Event. All actions of the Company according to such adjustments are conclusive and binding upon the Customer. The Company shall inform the Customer of any adjustment as soon as reasonably practicable.

3.6. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Or this may occur in the trading session start moments. So as a result, placing a stop-loss order will not necessarily limit your losses to the intended amounts, because market conditions may make it impossible to execute such an order at the stipulated price.

3.9. The Client may submit to the Company in writing by e-mail or delivery by hand, his objection to the execution or the non-execution or the mode of execution of a transaction and/or Order concluded on his behalf within two (2) working days from the conclusion of the transaction. 3.12. All price levels in the trading terminal are determined at the Company's discretion. Any references of the Client to prices of other trading or information systems shall be disregarded.

3.13. Trading operations using additional functions of the Client trading terminal such as Trailing Stop or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on the Client trading terminal, and the Company bears no responsibility whatsoever. The Company reserves the right to reverse any or all types of existing or previous transactions performed by the Client in any of his trading accounts and terminate the Agreement in case the Client uses additional functions on his trading terminal such as Expert Advisor etc., which might cause a manipulation on the execution process of the financial instrument as well as affect the smooth operations of the Trading Platform.

The Client agrees to check the full specification of the financial instrument before placing any order. From Friday to Monday, swaps are calculated once. From Wednesday to Thursday, swaps are calculated in triple size. The Company does not have to inform the Client, and it is the Client's responsibility to check for swap values.
